

## tpt Channels & Where to Find Them

Twin Cities Public Television provides the following family of television services to the community:

- **tpt 2** (in High Definition) – our "classic" public television channel, with educational children's programming during the day and PBS prime-time content
- **tpt LIFE** – focused on lifestyle and how-to programs
- **tpt MN** – The Minnesota Channel, featuring all local and regional programming
- **tpt Weather (Wx)** – a weather radar channel, in partnership with MNDOT

All **tpt** channels are available free, over-the-air in our core broadcast area. For reasons beyond our control, not all televisions connected to cable or satellite will receive all of our channels. The table below summarizes coverage for the major cable and satellite providers in our region. Many smaller cable companies also carry **tpt**. If your provider is not listed here, please contact them for specific information.
